JULY 2021

BATHURST WINTER FESTIVAL

SATURDAY 26 JUNE - SUNDAY 11 JULY

In 2021 the festival theme is 'People and Place'.

Through the theme People and Place we will celebrate everything that makes our community and our region special: individuals and groups, diversity, four seasons, heritage, activities, culture, entertainment, resilience and more. Familiar faces and quiet places. Keep an eye out for the unique interpretations of this year's theme as you wander along the Illumination Light Walk and check out the Brighten Up Bathurst locations around town.

Fill your winter school holidays with fun family adventures. Celebrate the magic of winter at the annual 16 day Bathurst Winter Festival. Stunning light shows, boutique food events with local wines and craft ales, outdoor ice skating, carnival rides, live music and more.

STIRRING THE ASH: EUAN MACLEOD AND ANDREW MERRY

Stirring the ash is a collaboration between painter Euan Macleod and photographer Andrew Merry. The series is set in the liminal landscape of Napoleon Reef, near Bathurst. Macleod and Merry's synergetic collaboration is a many-layered journey not only into the natural world but also into the nature of image-making. The elemental, complex narrative of fire is acknowledged and explored as both a destructive and creative force in the Australian landscape.

This multimedia exhibition acts as a portal into the otherworldly imagination of Macleod's iconic figurative landscapes. Macleod's paintings are reimagined and transformed, through Merry's lens, into the medium of photography, video and performance. Macleod becomes an actor in the theatre of Merry's photographs. The end-result is a combined body of work that is both cataclysmic and quietly reflective, that blazes, flickers and glows.

Wellington-based poet Gregory O'Brien—author of the 2010 monograph Euan Macleod—the painter in the painting— adds another layer to the exhibition with his text Written in ash, which brings together memories of the artist's studio, landscapes he has travelled through with Macleod, and meditations on both the photographer's and the painter's art. A BRAG Exhibition.

ANGELA MALONE: WINTER PAINTINGS

Over the last ten years, Orange-based artist and poet Angela Malone has been drawn to a friend's orchard to paint. Her recent paintings are an attempt to coalesce the landscape's fleeting external reality with her own emotional and inner world by working vigorously and quickly, often abstracting elements of the landscape through the process of reduction. A Bathurst Regional Art Gallery Local Artist Project.

CHESTER NEALIE: ETCHED IN FIRE

Over six decades, the charismatic New Zealand-born, Gulgong-based master potter Chester Nealie has amassed a wealth of scientific and technical knowledge of the clay and glazes he uses in his pursuit of aesthetics through the making of his woodfired ceramics.

This survey charts his career and will show works by Frank Boyden (US); Barry Brickell and Richard Parker (NZ); and Peter Rushforth, Alan Peascod, Owen Rye, Janet Mansfield and Ivan McMeekin (Australia).

Nalie is represented in numerous collections, including Musée National de Céramique, Paris; National Gallery of Australia, Canberra; Christchurch Art Gallery; Te Papa National Museum of New Zealand, Wellington; Art Gallery of Ballarat; and Bathurst Regional Art Gallery. A BRAG Exhibition curated by Jan Irvine-Nealie.

GREG CROSS - 'SEEN IN PASTELS'

In this exhibition Greg is portraying some beautiful seascapes, calm horizons and movement of white wandering clouds – as good as being there at some of these locations. When Greg sees something he likes, he tries to capture that moment in his favourite medium, pastels.

Greg follows the pastels art world, developing ideas and concepts based sometimes on the work of established American landscape artists.

LOUISE RANSHAW - 'REEF'

This exhibition draws on Louise's love of organic materials and objects found in the environment. A visit to Burrendon Arboreatum last year saw her develop ideas and forms from the many seed pods, foliage and bark she observed there. Some of these drawings and early projects crossed boundaries and morphed into forms reminiscent of marine corals and algae.
